Spitsbergen, Greenland and Iceland - M/S Expedition

Sail from Spitsbergen to Greenland, following the ice's edge always on the lookout for wildlife. Navigating south, explore this remote landscape not only by ship but also on foot and by Zodiac inflatable boat. This journey highlights the contrast and change in the Arctic as you move south, finally ending in the 'land of ice and fire' - Iceland. Inuit villages, unique wildlife and remote destinations are some of the highlights on this truly unforgettable voyage through the Arctic.

Spitsbergen & the Greenland Sea
Before heading west, we discover the Arctic nature and scenic wilderness of Spitsbergen, always on the search for walrus and the mighty polar bear. Possible areas to explore include Krossfjorden or Hornsund. We cross the Greenland Sea keeping a vigilant watch for wildlife, late summer icebergs and pack ice from the decks and observation lounge. This journey highlights the contrast and change in the Arctic.

Wild Greenland
The ship travels as far north as the ice allows before hugging the coastline towards Iceland. Every day is a new adventure as we explore this remote and spectacular national park with landings, trekking and Zodiac cruises. Inuit villages, unique wildlife and remote destinations are some of the highlights on this truly unforgettable voyage through the Arctic. It is a rugged world with tundra, fjords, icebergs, waterfalls and glaciers but the tenacity of mankind is seen in remnants of explorers' huts, Greenlandic (Inuit) settlements and the Danish Sled Dog Patrol.

Slowly moving south, explore along the eastern coast of Greenland. In this remote and untouched landscape we search for wildlife such as walruses, seals, narwhals, polar bears, musk oxen, wolves, Arctic foxes, ermine, Arctic hares, lemmings, and a variety of birds. We will board our Zodiac boats to get a closer look at some of the birdlife and to walk in the tundra. Our southward journey will culminate in Scoresbysund which is one of the largest fjord systems in the world with imposing granite walls, mountain peaks, glaciers and icebergs beautifully carved by the glaciers. From here we cross the Denmark Straits to Iceland.

Ship Description

M/S Expedition
At a nimble 105 metres (345 ft) in length, with a capacity to hold 132 guests, the M/S Expedition is an ideal vessel to ply polar waters. The M/S Expedition is large enough to provide stability, speed, spacious cabins and ample public space. Yet she is small enough to manoeuvre in remote areas and get you close to the action. Ship stabilizers ensure a smooth ride in rough waters, allowing you to enjoy more of your time at sea. A fleet of ten Zodiacs allows passengers to get out and actively explore remote shores. The M/S Expedition is a speedy vessel. A top speed of 16 knots means you'll spend less time getting from A to B, and more time exploring your surroundings.

Clothing

Parkas
This will be provided by the ship operator. Please register your size with us before travel and we will arrange for your parka to be available in your cabin on arrival.
Gloves
Keeping your hands warm and dry can be a challenge. Thin polypropylene gloves can be worn underneath warm outergloves. This allows you some protection from the cold when removing your gloves to operate your camera etc. We strongly recommend that you bring more than one pair of gloves, in case one gets wet (or lost).
Hat/Cap
Warm, woollen hat/cap to protect your ears, as well as a scarf, neck gaiter or other face protection, such as a balaclava.
Trousers
Water-resistant trousers of coated nylon or, even better, Gore-Tex® are essential for your comfort. They can be worn over your regular clothes to keep you warm and dry. We suggest that you purchase trousers a few sizes larger than you normally wear as you will be wearing them over other clothing. Gore-Tex® or similar fabrics are excellent for keeping out wind and water without trapping excess heat. Rain gear and Gore-Tex® products can be found in any outdoor sport clothing store. In addition to your waterproof trousers, warm ski pants are suggested if you have them. Warm trousers such as jeans, corduroys etc are also good.
Socks
Warm wool socks worn over a thin pair of silk, polypropylene socks should provide enough warmth and insulation for your feet. Bring several pairs of socks, since you will inevitably get your feet wet.
Outer Clothing Woollen, knit or cotton sweaters/tops, polar fleece tops (medium weight), several cotton turtlenecks and T-shirts for layering on and off the ship.
Underclothing

Thermal underwear is highly recommended as it will keep you warm without adding bulk. Most polar travellers prefer a lightweight version.

Equipment

Sunglasses and sun cream
Personal toiletries
A refilllable water bottle
Books/reading material
Camera and memory cards (and something to protect the camera when out in the elements)
Seasickness remedy
Walking poles
Personal First Aid

Footwear

Complimentary, used waterproof boots will be supplied onboard. However, guests might want to bring their own if they are the following sizes due to the limited quantities onboard:
- men's UK size 12 & 13 1/2
- women's UK size below three & seven and above
Guests must bring their own if they are:
- men's UK size six 1/2 or smaller
- men's UK size 13 1/2 or larger
- women's UK size two or smaller
- women's UK size nine 1/2 or larger
These are rubber, waterproof boots that are just below your knees with a strong, ridged non-skid sole.
You usually have to step from the Zodiac into icy water up to 30 cm high on most landings. Do not bring heavy, cumbersome boots that make it difficult to walk or boots with metal cleats as they cannot be used for landings. For maximum warmth, wear loose-fitting boots and two pairs of socks. Try out your boots before the voyage.
