Often you'll stay in different styles of accommodation during your tour; so we make an average rating across the entire tour. For more information on where you'll stay each night, please refer to the day by day tour itinerary.

DAY 1 Overnight flight to Thailand

Why Book this trip?

Although the climate varies within the country, Thailand is a good year round destination. For the bulk of the country the months from November to April offer pleasantly cool, dry conditions making it perfect for travel. On the southern peninsula the climate differs between the east and west coast. East coast beaches receive their warmest temperatures during our summer months, whilst the west coast enjoys their warm, dry conditions during our winter and spring.

Preparing for your Trip

Climate

Thailand

Generally hot with high humidity. There is some rainfall from April to September with most days being hot (around 33 Degrees) and a light breeze on the islands. If it does rain, it will be more of a heavy tropical downpour that lasts a few hours. Additional information and climate charts can be accessed at <http://www.explore.co.uk/weather>.

Luggage allowance on trip:

Unfortunately it does occasionally happen that luggage does not always reach its destination on the same flight as its owner, or possibly it may be damaged in transit. If you are unlucky enough for this to occur, it is important that you file a PIR (Property Irregularity Report) with the airline before leaving the airport. This is essential when you come to make a claim either against the airline or from your travel insurance company
