It was here at this important prehistoric site, together with other startling discoveries, that have contributed to the furthering understanding of early human development. While you are here you shall move through various different habitats and seek out the daily drama of the struggle between prey and predator, large and small, from the lions, leopards and cheetahs to the elephants, giraffe and buffalo. Every turn of the game drives reveal something of this stunning world where more than 500 species of birds recorded here. The vastness of the space under the vault of the sky gives one a liberating sense of space difficult to find anywhere else.
