Classic Antarctica - M/S Expedition

To the South Shetland Isles

After an included night in Ushuaia we navigate the Beagle Channel then head south across the Drake Passage and across the turbulent waters of the Antarctic Convergence. This meeting of cold polar water flowing north and warmer equatorial water moving south pushes nutrient rich waters to the surface, attracting a variety of seabirds, whales and other species. Reaching land at the South Shetland Islands we hope to sail into the flooded volcanic caldera of Deception Island.

Exploring the Antarctic Peninsula

Ice-capped mountains, crevassed glaciers and endless white expanses herald our arrival in Antarctica. Possible landings include Paradise Harbour, Neko Harbour or Wilhelmina Bay and cruising Lemaire Channel, Errera Channel or Neumayer Channel. Scientific research stations and abandoned whaling stations will also be of interest. Conditions permitting, we'll attempt two excursions per day to explore the rich diversity of wildlife and potential wildlife sightings include Gentoo, Adelie and Chinstrap penguins, Fur, Leopard, Weddell and Crabeater seals, Minke and Humpback whales - and possibly even Orcas. Not to mention the abundance of seabirds, most notably the albatross that spend the day soaring above our wake. Enormous icebergs and the sheer walls of their glacial parents provide virtually limitless photo opportunities.

Wildlife

Whales

Thanks to the abundance of the small, shrimp like krill as the basis of the food chain, many species of whales make the water south of the Antarctic Convergence their summer home. Some of the species found in the frigid southern waters include: the Humpback Whale who consumes over a ton of krill each day; the Southern Right Whales easily identified by the whitish callosities on the jaws and forehead; the Sperm Whales made famous in Moby Dick; the Killer Whale which is actually not a whale at all but the largest of the dolphin family; the Sei Whale which can achieve speeds up to 55 km/h over short distances; the playful Minke Whales very common in the peninsula area; the Fin Whale who can attain a length of 25 to 27 meters making them the second largest whales; and the Blue Whale which is not only the largest whale in the oceans but also the largest animal that has ever lived.

Penguins

The common name for all flightless, aquatic birds, penguins are only found south of the equator. Penguins have been grouped into 18 species and 6 genera, with most making their homes in Antarctica and the sub Antarctic islands, though others are native to the coasts of Australia, South Africa, South America, and the Galapagos Islands. Penguins are speedy and agile swimmers, but extremely slow on land. The regions we visit aboard MS Expedition are inhabited by 6 different species including the giant King Penguin who can grow up to 1 metre in height (found only on South Georgia Island); the Adelie Penguin named after French explorer Dumont d'Urville's wife; the Chinstrap Penguin identified by the distinctive black line connecting the black cap to below the chin; the Gentoo Penguin with its orange bill and white flash above and behind its eyes; the Macaroni Penguin (Only on South Georgia Island) who number roughly 12 million and are easily identified by the orange tassels meeting between the eyes; and the Rockhopper Penguin (Only in Falkland Islands) who are similar to the Macaroni in appearance but slightly smaller and have yellow tassels.

Ship Description

At a nimble 105 metres (345 ft) in length, with a capacity to hold 132 guests, M/S Expedition is an ideal vessel to ply polar waters. M/S Expedition is large enough to provide stability, speed, spacious cabins and ample public space, but small enough to manoeuvre in remote areas and get you close to the action. Ship stabilisers ensure a smooth ride in rough waters, such as the infamous Drake Passage, allowing you to enjoy more of your time at sea. A fleet of ten zodiacs allows passengers to get out and actively explore the remote shores of our destinations. M/S Expedition is a speedy vessel. A top speed of 16 knots means you'll spend less time getting from A to B, and more time to explore your surroundings.

Suitability

We've given each of our tours a comfort rating and a tour pace, walking or cycling grade to give you a general idea about the level of activity on each tour and the standard of accommodation you will be staying in at the end of your day's adventure.

Often you'll stay in different styles of accommodation during your tour; so we make an average rating across the entire tour. For more information on where you'll stay each night, please refer to the day by day tour itinerary.

Tour Comfort: Comfortable

Hand-picked and chosen for their character, location or local importance, these properties have excellent facilities and a higher level of comfort and service. They provide the perfect wind down after an active day.

Tour Style: Classic

Packed with adventure, these tours offer inspiring destinations and authentic travel experiences at a reasonable price. Using all kinds of transport and accommodation, we'll take you off the beaten track to discover the true heart of the people and places you visit.

Tour Pace: Relaxed

Easy paced tours with plenty of time to relax and absorb the sights and immerse yourself in the local surroundings.

Your tour itinerary

Tour itinerary notes

While our intention is to adhere to the day-by-day itinerary as printed below, a degree of flexibility is built in. Overnight stops may vary from those suggested.

DAY 1 Arrive Ushuaia

Arrive into Ushuaia, the southernmost city in the world. If you arrive in on this day, you will be transferred to your hotel and will have the evening at leisure to explore Ushuaia. The city has 40,000 inhabitants and is a major ski resort area for both alpine and cross-country skiers. It also offers magnificent hiking options in the nearby 'Parque Nacional Tierra del Fuego' - the only coastal national park in Argentina.

Overnight: **Standard Hotel**

 **Included Meals:** None

DAY 2 Embark on the M/S Expedition

Today we will embark on the expedition ship. Embarkation time is set for 4:00 pm. The morning is free to do any last minute shopping, an optional excursion to Tierra Del Fuego National Park or a good hike up to the Marshall Glacier. The evening is spent on board the ship watching the sunset over the Beagle Channel. On the first day onboard, your Expedition Leader will give you an expedition overview. Due to ice and weather conditions, there is a certain amount of flexibility built into the itinerary and on occasion, it may be necessary or desirable to make alterations.

Overnight: **Comfortable Boat**

 **Included Meals:** Breakfast, Dinner

DAY 3 The Drake Passage

Our adventure begins with a 400 mile crossing of the passage that bears the name of the 16th century English explorer Sir Francis Drake. The M/S Expedition is at home in this part of the Southern Ocean, known for the unimpeded fetch of the winds that encircle the Antarctic. At some point on the second day we cross the Antarctic Convergence, a meeting of cold polar water flowing north and warmer equatorial water moving in the opposite direction. This mixing pushes nutrient rich waters to the surface attracting a variety of seabirds, whales and other species.

Overnight: **Comfortable Boat**

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 4 The Drake Passage

As we make the passage, you have time to become acquainted with the ship and frequent the common areas that include the lounge, dining hall, library and lecture hall where we meet our guides, ship's crew and expedition staff. We also begin the lecture and information sessions to learn the extraordinary human and natural history of the Antarctic region.

Overnight: **Comfortable Boat**

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 5 Antarctic Peninsula & the South Shetland Islands

This is what we've all been waiting for - a chance to step foot on the Great White Continent! Over the next four days we will navigate southwards making stops in the South Shetland Islands then through the Bransfield Strait and to the Antarctic Peninsula. Our goal is to attempt two excursions per day, while we navigate through the area, but our itinerary and daily schedule will be based on the local weather and ice conditions that we encounter.

Overnight: **Comfortable Boat**

Included Meals: Breakfast, Lunch, Dinner

DAY 6 Antarctic Peninsula & the South Shetland Islands

The Antarctic Peninsula and the South Shetland Islands abound with wildlife activity. Penguins gather with their fast-growing chicks, whales are seen in great numbers, seals haul out onto ice floes and beaches, and numerous albatross and other seabirds trail in our wake.

Overnight: **Comfortable Boat**

Included Meals: Breakfast, Lunch, Dinner

DAY 7 Antarctic Peninsula

There is plenty of time to enjoy the sheer beauty and the breathtaking scenery of ice-choked waterways, blue and white icebergs, impressive glaciers and rugged snow-capped mountains.

Overnight: **Comfortable Boat**

Included Meals: Breakfast, Lunch, Dinner

DAY 8 Antarctic Peninsula

The Peninsula also has a remarkable history and, during the voyage, we will learn about some of the most important and dramatic expeditions to this remote corner of the world. Keeping a lookout from the Bridge or the deck of the ship, as we thread our way along the continent, you'll feel the same sense of excitement as many of those early Explorers. The continent itself is roughly circular with a spindly arm, called the Antarctic Peninsula, reaching northwards towards Tierra del Fuego. South America is the nearest landmass, some 600 miles away. Antarctica is a continent of superlatives. It is the coldest, windiest, iciest and highest of all the major landmasses in the world. It is the continent with the longest nights and the longest days and it is home to the world's greatest concentration of wildlife. It is also one of the last true wilderness areas left on earth - largely unchanged since the early Explorers and Whalers first landed on its inhospitable shores less than two centuries ago.

Overnight: **Comfortable Boat**

Included Meals: Breakfast, Lunch, Dinner

DAY 9 The Drake Passage

Today we leave Antarctica and head north across the Drake Passage.

Overnight: **Comfortable Boat**

Included Meals: Breakfast, Lunch, Dinner

DAY 10 The Drake Passage

In between bird watching and whale watching and enjoying some final lectures by our expedition staff, this is a chance to relax and review the adventures of the past week before returning to Ushuaia.

Overnight: **Comfortable Boat**

Included Meals: Breakfast, Lunch, Dinner

DAY 11 Ushuaia

And so our adventure comes to a close. We'll say our goodbyes as we disembark in Ushuaia in the morning, after breakfast on board the ship. If you are departing Ushuaia on this day, you will be transferred to the airport for your onward flight.

Antarctica Region

Water £: The mighty seventh continent is the last true wilderness of significant size and is as far away from human influence as it's possible to get without leaving the planet. Antarctica is the coldest, driest and windiest place on Earth with no trees or rivers. Despite this, for a few weeks each year, its perimeter supports an astonishing array of life. Thriving rookeries of noisy penguins adorn the summer shores patrolled by skua hunting for an easy meal. In the sea, millions of tiny krill support a thriving population of whale and seal species while in the air albatross soar on the ocean breeze. Antarctica has a stark beauty which is without comparison. Ice-choked channels and snowy landscapes provide ever-changing scenes of beauty which are without comparison. Giant tabular icebergs calved from the edges of the ice shelf float majestically through the waves, their perfectly flat tops resembling giant aircraft carriers of epic proportions. This icy land has long been a draw for adventurers and explorers. In the early 20th century the likes of Scott, Amundsen, Oates and Shackleton all pitted their wits and strength against the harsh conditions. Some of these famous explorers were to pay for their curiosity with their lives. Today, with the advent of polar-rated expedition vessels, it is now possible for adventurous travellers to reach the edges of this remote region. To travel here is a real privilege; it's a journey that those with an interest in the natural world should strive to do at least once.

Preparing for your Tour

Climate

Argentina

Argentina has a climate that ranges from subtropical in the north to cold in the temperate south. The Andes has erratic rainfall and flash floods from December to May. From June to September spring like sunny days temper the cold nights.

Antarctica Region

Polar Temperatures during Antarctic season: Min.: -15°C; Max. 12°C; Average 0°C.

Clothing

Dress on board is informal. Pack comfortable, casual clothing for all activities. Wind and waterproof outer layers are essential, and the most important piece of clothing you will bring is a parka. Beware of tight clothing that leaves no room for trapped air, which is an excellent insulator. Wool, silk and some of the new synthetic fibres, like polar fleece, retain heat better than cotton.

Parkas

This will be provided by the ship operator. Please register your size with us before travel and we will arrange for your parka to be available in your cabin on arrival.

Gloves

Keeping your hands warm and dry can be a challenge. Thin polypropylene gloves can be worn underneath warm outergloves. This allows you some protection from the cold when removing your gloves to operate your camera etc. We strongly recommend that you bring more than one pair of gloves, in case one gets wet (or lost).

Hat/Cap

Warm, woollen hat/cap to protect your ears, as well as a scarf, neck gaiter or other face protection, such as a balaclava.

Trousers

Water-resistant trousers of coated nylon or, even better, Gore-Tex® are essential for your comfort. They can be worn over your regular clothes to keep you warm and dry. We suggest that you purchase trousers a few sizes larger than you normally wear as you will be wearing them over other clothing. Gore-Tex® or similar fabrics are excellent for keeping out wind and water without trapping excess heat. Rain gear and Gore-Tex® products can be found in any outdoor sport clothing store. In addition to your waterproof trousers, warm ski pants are suggested if you have them. Warm trousers such as jeans, corduroys etc are also good.

Socks

Warm wool socks worn over a thin pair of silk, polypropylene socks should provide enough warmth and insulation for your feet. Bring several pairs of socks, since you will inevitably get your feet wet.

Outer Clothing

Woollen, knit or cotton sweaters/tops, polar fleece tops (medium weight), several cotton turtlenecks and T-shirts for layering on and off the ship.

Underclothing

Thermal underwear is highly recommended as it will keep you warm without adding bulk. Most polar travellers prefer a lightweight version.

Equipment

Sunglasses and sun cream

Personal toiletries

A refillable water bottle

Books/reading material

Camera and memory cards (and something to protect the camera when out in the elements)

Seasickness remedy

Walking poles

Personal First Aid

Footwear

Complimentary, used waterproof boots will be supplied onboard. However, guests might want to bring their own if they are the following sizes due to the limited quantities onboard:

- men's UK size 12 & 13 1/2

- women's UK size below three & seven and above

Guests must bring their own if they are:

- men's UK size six 1/2 or smaller

- men's UK size 13 1/2 or larger

- women's UK size two or smaller

- women's UK size nine 1/2 or larger

These are rubber, waterproof boots that are just below your knees with a strong, ridged non-skid sole.

You usually have to step from the Zodiac into icy water up to 30 cm high on most landings. Do not bring heavy, cumbersome boots

that make it difficult to walk or boots with metal cleats as they cannot be used for landings. For maximum warmth, wear loose-fitting boots and two pairs of socks. Try out your boots before the voyage.

Luggage: On Tour

One main piece of baggage and daypack. Remember you are expected to carry your own luggage so don't overload yourself.

Please note that a 15kgs luggage weight limit is sporadically enforced on the internal flight to Ushuaia, occasionally charges may be levied against passengers taking luggage in excess of 15kgs.

Luggage allowance on tour: 15Kg
