Preparing for your Tour

Climate

Ethiopia

Ethiopia is generally pleasant and warm, but varies with altitude. The long rains usually arrive mid- June to early September and the short rains between mid-February and April although this pattern has been completely erratic in recent times. After the rains, the highlands of northern Ethiopia are usually green and thus particularly scenic. The temperature all year round rarely falls below 18°C. Night-time temperatures in the mountains can be cold and can drop below freezing at higher altitude. There is a strong risk of sunburn at high altitude in Ethiopia. Additional information and climate charts can be accessed at <http://www.explore.co.uk/weather>. Seasonal weather patterns can be unpredictable. Up-to-date information on the weather worldwide can be found by following the BBC weather link on this page.

Luggage allowance on tour:

Unfortunately it does occasionally happen that luggage does not always reach its destination on the same flight as its owner, or possibly it may be damaged in transit. If you are unlucky enough for this to occur, it is important that you file a PIR (Property Irregularity Report) with the airline before leaving the airport. This is essential when you come to make a claim either against the airline or from your travel insurance company

Our commitment to the environment

We are passionate about sustainable travel and work hard to create tours where your holiday delivers real benefits to the local communities. We minimise our impact by travelling in small groups, respecting local cultures and traditions, reducing waste and offsetting 100% of the CO2 from our flights.

When you travel with Explore, you are directly contributing to local economies and helping empower the people you meet. We currently support a range of charities and good causes, including: The Sunshine Orphanage (which cares for abandoned children in Luxor, Egypt), Education for All (sponsoring children through their secondary education in Morocco), The Hope Foundation (helping an Indian Village to recover from the 2004 Tsunami) and the Mufindi Orphanage, which support AIDS orphans in Tanzania.

We also care passionately about the world's wildlife. We are patrons of the Born Free Organisation, Travel Operators for Tigers (helping save the Bengal Tiger from extinction) and Friends for Conservation. We have also adopted a beautiful Sri Lankan Elephant called 'Serendip'.

We are delighted to have received a Five Star sustainable tourism status from the Association of Independent Tour Operators in recognition of our on-going commitment to sustainable tourism.

Cool Earth

Explore are delighted to support Cool Earth to reduce carbon emissions through preventing the illegal deforestation of the South America rainforest. One of the top sources of global carbon emissions, rainforest deforestation equivalent to the USA's annual emissions, it also destroys flora and fauna, sometimes to the point of extinction. It also degrades the lives and communities of the 350 million residents of the rainforest.

Cool Earth prevents the deforestation through its support of local communities as forest guardians and by focussing on areas in immediate danger of deforestation. It has so far protected over 350,000 acres of rainforest, with each acre saving an emission of 260 tons of CO2, as well as protecting rare animals and plants. When you travel on an Explore holiday we make a donation to Cool Earth that exceeds the impact of our customers flights each year. In addition to mitigating emissions, when you travel with Explore, you are helping to protect the source of 20% of the world's fresh water and oxygen, as well as the livelihoods of the 1.6 billion people who are reliant on the rainforest. www.coolearth.org
