Falklands, South Georgia and Antarctica - Expedition

The Falkland Islands

From Ushuaia we head northeast to the Falkland Islands. This archipelago of over 400 islands is an important breeding ground for penguins, elephant seals and sea lions and an abundance of seabirds along the endless beaches, including the blackbrowed

albatross. We spend time in Stanley, the most isolated capital in the world, and learn about the island's heritage.

South Georgia 'The Alps in mid-ocean'

Often described as the gem of the Southern Ocean, the splendour of South Georgia is hard to describe - stunning snow capped mountain landscapes, deep fjords, tousled tussock grasses and wild beaches all combine to provide superb stunning photo opportunities. Here is the most important colony of king penguins, fur seals and elephant seals and it is estimated that over 10 million sea birds visit South Georgia each year. During the spring months the hillsides are carpeted with wild flowers. The islands are steeped in the history of Antarctic exploration and here we find the grave of Sir Ernest Shackleton, possibly the most accomplished and courageous of all polar explorers.

To the ends of the earth

We push further south and on to Antarctica. En route we hope to visit a wealth of evocative locations, such as the British research station of Port Lockroy in the silent Neumayer Channel, the sunken caldera of Deception Island, the rookeries of Chinstrap, see Adélie, Macaroni and Gentoo penguins on bluffs, points and bays along the way, and perhaps even swim in the hot springs of Pendulum Cove.

Wildlife

Whales

Thanks to the abundance of the small, shrimp like krill as the basis of the food chain, many species of whales make the water south of the Antarctic Convergence their summer home. Some of the species found in the frigid southern waters include: the Humpback Whale who consumes over a ton of krill each day; the Southern Right Whales easily identified by the whitish callosities on the jaws and forehead; the Sperm Whales made famous in Moby Dick; the Killer Whale which is actually not a whale at all but the largest of the dolphin family; the Sei Whale which can achieve speeds up to 55 km/h over short distances; the playful Minke Whales very common in the peninsula area; the Fin Whale who can attain a length of 25 to 27 meters making them the second largest whales; and the Blue Whale which is not only the largest whale in the oceans but also the largest animal that has ever lived.

Penguins

The common name for all flightless, aquatic birds, penguins are only found south of the equator. Penguins have been grouped into 18 species and 6 genera, with most making their homes in Antarctica and the sub Antarctic islands, though others are native to the coasts of Australia, South Africa, South America, and the Galapagos Islands. Penguins are speedy and agile swimmers, but extremely slow on land. The regions we visit aboard MS Expedition are inhabited by 6 different species including the giant King Penguin who can grow up to 1 metre in height (found only on South Georgia Island); the Adélie Penguin named after French explorer Dumont d'Urville's wife; the Chinstrap Penguin identified by the distinctive black line connecting the black cap to below the chin; the Gentoo Penguin with its orange bill and white flash above and behind its eyes; the Macaroni Penguin (Only on South Georgia Island) who number roughly 12 million and are easily identified by the orange tassels meeting between the eyes; and the Rockhopper Penguin (Only in Falkland Islands) who are similar to the Macaroni in appearance but slightly smaller and have yellow tassels.

Ship Description

Expedition

At a nimble 105 metres (345 ft) in length, with a capacity to hold 132 guests, the Expedition is an ideal vessel to ply polar waters. The ship is large enough to provide stability, speed, spacious cabins and ample public space, yet she is small enough to manoeuvre in remote areas and get you close to the action. Ship stabilizers ensure a smooth ride in rough waters, such as the infamous Drake Passage, allowing you to enjoy more of your time at sea. A fleet of ten zodiacs allows passengers to get out and actively explore the remote shores of our destinations. The Expedition is a speedy vessel. A top speed of 16 knots means you'll spend less time getting from A to B, and more time to explore your surroundings.

Suitability

We've given each of our tours a comfort rating and a tour pace, walking or cycling grade to give you a general idea about the level of activity on each tour and the standard of accommodation you will be staying in at the end of your day's adventure.

Often you'll stay in different styles of accommodation during your tour; so we make an average rating across the entire tour. For more information on where you'll stay each night, please refer to the day by day tour itinerary.

Accommodation Grade: Premium

Our comfortable accommodation is hand-picked and chosen for its character, location or local importance. These properties have excellent facilities and a higher level of comfort and service.

Tour Style: Classic

Packed with adventure, these tours offer inspiring destinations and authentic travel experiences at a reasonable price. Using all kinds of transport and accommodation, we'll take you off the beaten track to discover the true heart of the people and places you visit.

Tour Pace: Relaxed

Easy paced tours with plenty of time to relax and absorb the sights and immerse yourself in the local surroundings.

It also offers magnificent hiking options in the nearby 'Parque Nacional Tierra del Fuego' - the only coastal national park in Argentina.

DAY 4 The Falkland Islands

The Falkland Islands provide a rare opportunity to witness the biological diversity and extraordinary scenery of the southern islands. Penguins, elephant seals and sea lions are abundant. Port Stanley provides an opportunity to meet the hardy local inhabitants whose colourful houses provide contrast to the long dark winters.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 5 The Falkland Islands

The islands consist of 700 small and mostly uninhabited islands and 2 main islands - East and West Falklands. Located 490 km east of Patagonia, the Falklands were officially discovered on August 14, 1592 by John Davis and remained uninhabited until 1764 when the French built a garrison at Port Louis disregarding the Spanish claim to the islands. From that moment on there have been many disputes between Spain, France, Britain and Argentina, until the end of the Falklands War between Britain and Argentina in 1982 brought the islands firmly under Britain's control. Now with a human population of only 2491, the islands are the first stop in our journey. Here we hope to catch our first glimpses of penguins, including the Magellanic, rockhopper, macaroni, gentoo, and king penguins. With a little luck we may also see the elephant seals, sea lions, king cormorants, black-browed albatross, skuas, night herons, giant petrels, striated caracaras and of course sheep!

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 6 The Great Southern Ocean

Sailing east we'll set course for South Georgia Island.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 7 The Great Southern Ocean

Our days at sea will be filled with lectures to prepare us for South Georgia and we will have plenty of time on deck to identify the abundant sea birds of the southern ocean. We also keep our eye peeled for the whales that inhabit these waters.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 8 South Georgia

South Georgia Island is home to many marvels including Shackleton's grave, several former whaling stations, incredible scenery and prolific wildlife. Weather permitting, we will have three full days to explore this island and its huge colony of king penguins - a key highlight of this part of the journey! On nearby islands we also hope to spot wandering albatross in their nesting grounds.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 9 South Georgia

Known for its brutal whaling and exploratory history, this 170 km long and 40 km wide island is considered the first gateway to Antarctica and was the centre of the huge Southern Ocean whaling industry from 1904 to 1966. The famous captain James Cook was the first to land on South Georgia on January 17, 1775 and named the island after King George III. During the 62 years of whaling activities, any number between 183 whales the first year and the record 7825 whales in 1925-26 seasons were killed annually for their oil. Whales weren't the only animals hunted for their oil at that time. A total of 498,870 seals - mostly giant elephant seals - were also slaughtered. Since the end of whaling activities 40 years ago, wildlife has slowly returned to the island. Today the Island's wildlife is extraordinary, not only in its variety, but also for its sheer abundance. South Georgia is home to roughly 300,000 elephant seals, 3 million fur seals, and 25 species of breeding birds, including wandering albatrosses. The gravel beach at St. Andrews Bay has a king penguin rookery of 100,000 and an estimated five million macaroni penguins.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 10 South Georgia

The British explorer Sir Ernest Shackleton landed at King Haakon Bay on the southwest coast after the 800-mile journey in a 20-foot open boat from Elephant Island. They proceeded to hike the ice covered mountainous terrain, arriving to Stromness whaling station on May 20, 1916. Shackleton returned to South Georgia in 1922 for one last assault on Antarctica but passed away after suffering a major heart attack while in his cabin. He was buried at the whaler's cemetery at Grytviken station at the request of his wife.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 11 South Georgia

One final day to enjoy the exhilarating sights of South Georgia before heading towards the South Shetland Islands and the Antarctic peninsula.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 12 The Scotia Sea

We turn south and sail for two days, retracing Shackleton's route backwards as we head towards Elephant Island.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 13 The Scotia Sea

The South Shetland waters are rich with nutrients and the long summer days provide the ingredient that is missing most of the year. The result is a complex food chain topped by several species of whales, seals and seabirds.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 14 Antarctica & the South Shetland Islands

This is what we've all been waiting for - a chance to step foot on the Great White Continent ! Over the next 4 days we will navigate southwards, making stops in the South Shetland Islands then through the Bransfield Strait and onto the Antarctic Peninsula. Our goal is to attempt two excursions per day, but our itinerary and daily schedule will be based on the local weather and ice conditions that we encounter as we navigate through these parts.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 15 Antarctica & the South Shetland Islands

The Antarctic Peninsula and the South Shetland Islands abound with wildlife activity. Penguins gather with their fast-growing chicks, whales are seen in great numbers, seals haul out onto ice floes and numerous albatross and other seabirds trail in our wake.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 16 Antarctica & the South Shetland Islands

There is plenty of time to enjoy the sheer beauty and the breathtaking scenery of ice-choked waterways, blue and white icebergs, impressive glaciers and rugged snow-capped mountains. The Peninsula also has a remarkable history and, during the voyage, we will learn about some of the most important and dramatic expeditions to this remote corner of the world.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 17 Antarctica & the South Shetland Islands

Keeping a lookout from the Bridge or the deck of the ship, as we thread our way along the continent, you'll feel the same sense of excitement as many of those early Explorers. The continent itself is roughly circular with a spindly arm, called the Antarctic Peninsula, reaching northwards towards Tierra del Fuego. South America is the nearest landmass, some 600 miles away.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 18 Antarctica & the South Shetland Islands

Antarctica is a continent of superlatives. It is the coldest, windiest, iciest and highest of all the major landmasses in the world. It is the continent with the longest nights and the longest days and it is home to the world's greatest concentration of wildlife. It is also one of the last true wilderness areas left on earth - largely unchanged since the early Explorers and Whalers first landed on its inhospitable shores less than two centuries ago.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 19 The Drake Passage

Heading north across the Drake Passage, we spend two days enjoying the beauty of the sea, as we sail towards Ushuaia.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 20 The Drake Passage

Reflect on your memorable adventure and take in some final lectures or enjoy the passing scenery and birdlife up on deck. Don't forget to keep a careful lookout for your last chance to spot whales.

Expedition

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 21 Cruise ends Ushuaia

And so our adventure comes to a close. We'll say our goodbyes as we disembark in Ushuaia in the morning, after breakfast on board the ship. If you are departing Ushuaia on this day, you will be transferred to the airport for your onward flight.

Clothing

Dress on board is informal. Pack comfortable, casual clothing for all activities. Wind and waterproof outer layers are essential, and the most important piece of clothing you will bring is a parka. Beware of tight clothing that leaves no room for trapped air, which is an excellent insulator. Wool, silk and some of the new synthetic fibres, like polar fleece, retain heat better than cotton.

Parkas

This will be provided by the ship operator. Please register your size with us before travel and we will arrange for your parka to be available in your cabin on arrival.

Gloves

Keeping your hands warm and dry can be a challenge. Thin polypropylene gloves can be worn underneath warm outergloves. This allows you some protection from the cold when removing your gloves to operate your camera etc. We strongly recommend that you bring more than one pair of gloves, in case one gets wet (or lost).

Hat/Cap

Warm, woollen hat/cap to protect your ears, as well as a scarf, neck gaiter or other face protection, such as a balaclava.

Trousers

Water-resistant trousers of coated nylon or, even better, Gore-Tex® are essential for your comfort. They can be worn over your regular clothes to keep you warm and dry. We suggest that you purchase trousers a few sizes larger than you normally wear as you will be wearing them over other clothing. Gore-Tex® or similar fabrics are excellent for keeping out wind and water without trapping excess heat. Rain gear and Gore-Tex® products can be found in any outdoor sport clothing store. In addition to your waterproof trousers, warm ski pants are suggested if you have them. Warm trousers such as jeans, corduroys etc are also good.

Socks

Warm wool socks worn over a thin pair of silk, polypropylene socks should provide enough warmth and insulation for your feet. Bring several pairs of socks, since you will inevitably get your feet wet.

Outer Clothing

Woollen, knit or cotton sweaters/tops, polar fleece tops (medium weight), several cotton turtlenecks and T-shirts for layering on and off the ship.

Underclothing

Thermal underwear is highly recommended as it will keep you warm without adding bulk. Most polar travellers prefer a lightweight version.

Equipment

Sunglasses and sun cream

Personal toiletries

A refillable water bottle

Books/reading material

Camera and memory cards (and something to protect the camera when out in the elements)

Seasickness remedy

Walking poles

Personal First Aid

Footwear

Complimentary, used waterproof boots will be supplied onboard. However, guests might want to bring their own if they are the following sizes due to the limited quantities onboard:

- men's UK size 12 & 13 1/2

- women's UK size below three & seven and above

Guests must bring their own if they are:

- men's UK size six 1/2 or smaller

- men's UK size 13 1/2 or larger

- women's UK size two or smaller

- women's UK size nine 1/2 or larger

These are rubber, waterproof boots that are just below your knees with a strong, ridged non-skid sole.

You usually have to step from the Zodiac into icy water up to 30 cm high on most landings. Do not bring heavy, cumbersome boots that make it difficult to walk or boots with metal cleats as they cannot be used for landings. For maximum warmth, wear loose-fitting boots and two pairs of socks. Try out your boots before the voyage.

Luggage: On Tour

One main piece of baggage and daypack. Remember you are expected to carry your own luggage so don't overload yourself.

Please note that a 15kgs luggage weight limit is sporadically enforced on the internal flight to Ushuaia, occasionally charges may be levied against passengers taking luggage in excess of 15kgs.

For Self-Guided holidays and Private Journeys simply choose your date of travel and let us know so we can confirm all ground services.

The easiest way to confirm your booking is through our website. When you are ready to book, we normally require a 10% non-refundable deposit, but for some holidays this may be more to cover such items as permit fees, internal flights or other non-refundable services. If your travel starts within 60 days of booking, full payment will be required at the time of booking

100% No Surcharge Guarantee

The price paid for our holidays is no longer subject to change. Once booked and confirmed we will guarantee the price you pay will not increase, whatever the circumstances. You will not be approached to pay fuel surcharges unlike the vast majority of other adventure tour operators. The price guarantee applies to all new bookings departing between 1st January 2016 and 31st December 2017.
