Probably our best challenging adventure and perfect for active families who enjoy walking and undertaking a journey of exploration.

Suitability

We've given each of our tours a comfort rating and a tour pace, walking or cycling grade to give you a general idea about the level of activity on each tour and the standard of accommodation you will be staying in at the end of your day's adventure.

Often you'll stay in different styles of accommodation during your tour; so we make an average rating across the entire tour. For more information on where you'll stay each night, please refer to the day by day tour itinerary.

DAY 1 Join tour Lima

Arrive Lima and check-in at hotel

Overnight: **Standard Hotel**

Included Meals: None

DAY 2 Fly to Cusco with tour of the city

This morning we head to the airport and fly to the beautiful city of Cusco. Today we explore Cusco seeing this lovely city and its important Inca monuments, such as the Inca wall of Hatunrumiyoc with its famous twelve-sided stone. The stone, measuring some 5 feet across, has the typical bevelled joints which create the patterns of light and shadow on Inca walls. You can also visit the Koricancha to see the perfect fusion of Inca and Spanish architecture. The old capital of the Inca Empire survives only in its ruins, imbued with an atmosphere of mystery and grandeur. The Spanish-style city of today, with its attractive pink tiled roofs, arcaded plazas and steep winding alleyways, stands upon tremendous Inca foundation stones. The interlocking stones, assembled so carefully that a knife blade cannot be forced between the multi-sided joints, were highly functional as well as beautiful - they are earthquake proof. The rest of the day here is left free to explore the city.

Overnight: **Standard Hotel**

Included Meals: Breakfast

DAY 3 Visit the temple-citadel Sacsayhuaman

We will also visit Cusco's temple-citadel Sacsayhuaman which broods high above the town, its huge, zigzagging stone walls broken into 66 sharply projecting angles to catch attackers in a withering crossfire. 20,000 conscripted workers toiled for 90 years to finish it.

Overnight: **Standard Hotel**

Included Meals: Breakfast

DAY 4 Visit the indigenous market in Cusco and a llama farm

We visit to the remarkable market at Pisac, perhaps the most famous indigenous market in Peru with a stop at Awanacancha where we visit a llamas farm. The remaining part of the day is left free to explore more of Cusco

Overnight: **Standard Hotel**

Included Meals: Breakfast

DAY 5 Drive from Cusco to Misminay via Chincheros

Leaving Cusco this morning we drive through the Andes to arrive at Chequerec Community, a typical Andean village where we will start to trek through narrow paths traditionally used by the locals. During this hike, we will see small indigenous villages, cultivated fields, peasants working, curious children and a variety of animals as well as a varied flora. This is a great opportunity to discover different lifestyles and be in contact with the natural atmosphere of the Andes and its people. After a few hours of walking, we will arrive at the community of Misminay. Located at 3,700m, its location is spectacular as a natural balcony from where we can look at the splendid landscape and snow-capped mountains that surround the Sacred Valley; this view certainly astounds and leaves a deep impression on all those who visit this place. We will be received by the people of the village, and welcomed with a typical sweet spearmint tea; this agreeable herb is edible and medicinal for this people. Families live together in tiny, one or two-room adobe homes raising guinea pigs, cows and sheep. Fathers work as porters for hikers during the dry season and tend crops of potatoes, corn beans and quinoa during the wet months, while mothers watch the herds, take care of the household and raise their children. Women

also weave, producing the family's colorful ponchos, chullos, skirts, shawls and other items, on their backstrap looms. After lunch we will have a demonstration of weavings made by the women of the community who will show us traditional and ancestral techniques. There will be also the opportunity to learn more about the local agriculture, they will show us instruments used by the Incas and still used today, especially in the highlands. Tonight we will take dinner at the community meeting room before overnighing at a local house.

Overnight: **Simple Village House**

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 6 Bike to Moray and Maras, on to Ollantaytambo

After breakfast, we leave Misminay for some easy downhill biking lasting for a few hours. We will drive from Misminay to Cruzpata in the pampas of Chinchero. Here we will practice with the bikes before beginning our route along a hilly track (single track, dirty road and down hill, helmets are provided). We pass the Huaypo Lagoon to reach the experimental Agricultural Site of Moray a very unique archaeological site which consists of enormous natural depressions or hollows in the ground surface that the Incas used for constructing irrigated farming terraces around them. This place was an important center of domestication, acclimatization and hybridization of wild vegetable species that were modified or adapted for human consumption. After a short visit at this site, we continue by bike toward the town of Maras. After visiting the Salineras of Maras (Salt mines), we have a 30-40 minute descent walking to Pichingoto in the Sacred Valley, crossing the Urubamba River where our private bus waits to transfer us to Ollantaytambo town.

Overnight: **Standard Hotel**

 **Included Meals:** Breakfast

DAY 7 In the Sacred Valley; free for optional activities including rafting

Our base at Ollantaytambo makes the perfect place from which to discover the sites and activities around the Sacred Valley. Today there is the option for a full day's rafting of the white waters (grade 2-3) of the Urubamba River before returning to our comfortable accommodation in Ollantaytambo to prepare for the forthcoming Inca Trail.

Overnight: **Standard Hotel**

 **Included Meals:** Breakfast

DAY 8 Start the Inca Trail trek with overnight camping in Llaqtapata (2700m).

This morning we visit the Inca ruins at Ollantaytambo before we drive to KM82. The major highlight of the trip is without doubt the trek along the Inca Trail which was first explored by Hiram Bingham in 1911 and opened for walkers in 1970. The famous ruins of Machu Picchu are not the only historical remains within the area: many other interesting sites are hidden in places which can only be reached on foot, and have scarcely been explored. Our trek starts by crossing the Urubamba river, then follow its rapids down the Sacred Valley of the Incas to Llaqtapata (2700m). Here we camp below the ruins of Llaqtapata. (6km 2.5 hours)

Overnight: **Simple Camping**

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 9 Trek to Llulluchapampa (3800m) with stunning views of the snowy peaks

Following the course of the Kusichaca river, the trail leads to Huayllabamba, a quiet village of Inca origins and the last settlement on the route. We continue to Llulluchapampa (3,800m) which affords stunning views of the snowy peaks around us. Here we set up camp for the night. 2nd Camp 3,800m (12km 5.5 hours)

Overnight: **Simple Camping**

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 10 Trek over the Warmiwanusca (Dead Woman) Pass (4200m), to our third camp at 3600m

Today we trek over the Warmiwanusca (Dead Woman) Pass (4200m), to the valley of the Pacamayo river with its tropical vegetation. We then cross the Runkuraqay Pass (3950m). Here the selva (jungle) becomes visible on the slopes of the mountains. Sayacmarca ruins are on a rocky promontory. They command an imposing view and have only one means of access, a narrow granite stairway. Our trail goes through cloud forest with vines, exotic flowers (among them orchids) and luxuriant trees, then on through an Inca tunnel and along a ridge above the Urubamba river to the lovely Phuyupatamarca ruins (3800m). The views of the Urubamba and (if we are lucky) the snowcapped peaks of Veronica (5750m) and Salkantay make these ruins one of the most beautiful places on the trail. 3rd Camp 3600m (15km 8 hours)

Overnight: **Simple Camping**

 **Included Meals:** Breakfast, Lunch, Dinner

DAY 11 Travel through the Inti Punku - the Gate of the Sun to discover Machu Picchu

We descend to Winay-Wayna ruins (2591m), a small Inca city which, like Machu Picchu, was abandoned for unknown reasons. Then from Inti Punku - the Gate of the Sun - there is a sudden and fantastic view of the Lost City itself, Machu Picchu, set in a grandiose landscape that amazes all spectators. We walk down through the site, then travel down to our simple accommodation in the town of Aguas Calientes situated on the valley floor below Machu Picchu.

Overnight: **Simple Guesthouse**

 **Included Meals:** Breakfast, Lunch

DAY 12 Optional climb the Huayna Picchu to look down on Machu Picchu before returning to Cusco by train and bus

Our final morning is spent at Machu Picchu, probably the most astounding feat of engineering in all of ancient America. Temples, stairways, palaces and gabled stone dwellings are scattered everywhere, testifying to the energy and ingenuity of the builders. It is also possible to climb the steep and difficult peak of Huayna Picchu to look down on the Temple of the Sun. This must be pre-paid at time of booking. If you change your passport between your time of booking and prior to travel please take your original passport with you to avoid being fined. Later we return the short distance by train to Ollantaytambo and on by bus to Cusco.

Overnight: **Standard Hotel**

 **Included Meals:** Breakfast

DAY 13 Day in Cusco for souvenir buying

Today has been left free for some rest and relaxation in Cusco after your trek. It will also be the perfect time to visit the markets and shops in the old City to take back some lovely souvenirs before your flight home tomorrow.

Overnight: **Standard Hotel**

 **Included Meals:** Breakfast

DAY 14 Fly to Lima, tour ends

Depending on flight times we may have some free time in Cusco this morning before flying to Lima, where the tour ends.

 **Included Meals:** Breakfast

Included Activities

1. In order to regulate the number of people walking on the Inca Trail it is necessary to buy an Inca Trail Pass specific to the days that you wish to travel. There are 200 passes per day for tourists, the remainder are for guides and porters.
2. If you are travelling on an Explore tour, Explore buy the necessary permit on your behalf. This is non-refundable and can't be refunded or transferred after you have confirmed your booking.
3. Passes are sold on a 'first come first served basis' and sell out quickly, so we would urge that you book your tour well ahead of your intended travel date. New Inca Passes are released in early January of each year, so ideally we would recommend that you book your tour at least 6 months ahead and by December for the following year where possible.
4. Please note that due to the way the passes are distributed in January although a tour departure may be 'Guaranteed' we are unable to guarantee individual Inca Trail passes until we have confirmation that the passes have been purchased. On booking we will be able to tell you the date that your pass should be confirmed, and will contact you immediately in the (unusual) event that it is not. We do not recommend confirming your flights until your Inca Trail pass is confirmed.
5. In order to buy your pass we will need your: full name, passport number, date of birth and nationality. If you change passport before travelling it will be necessary to provide a copy of both passports in advance of travelling and to carry a copy of your previous passport with you.
6. The Peruvian authorities may change the regulations for the Inca Trail Pass at any time. In the event of this we will inform you as soon as possible.

Maximum Altitude on Trek (m)

4200

Trekking Details

The trip may be taken by almost anyone who enjoys good health and a good level of fitness, and appreciates that walking the Inca Trail to Machu Picchu is fairly rugged and involves trekking over rough pathways. The highest point on the route is 4200m - the realm of thin, cold, dry air. We acclimatise slowly.

Insurance: Please ensure that your insurance policy covers you to the altitude indicated before you come on tour. If you have Explore insurance, you will be covered to this altitude.

Medical Examination: You should visit your GP and specifically mention the maximum altitude the trek reaches, i.e. 4200m/13,779'.

Altitude Description

As this tour reaches altitudes of 4200 meters, we strongly recommend that travellers with heart or lung conditions, anaemia, asthma, high blood pressure or on the pill should seek the advice of their GP.

You must have adequate travel insurance for your trip. Please ensure that your insurance policy covers you to the maximum altitude indicated above. If you have Explore insurance you will be covered to this altitude.

Walking Boots

Walking Boots

We strongly recommend walking in good boots. Trainers, tennis shoes etc simply do not give the ankle support afforded by a decent pair of boots. Many people now trek in the lighter weight Goretex or leather boots sold under the brand names Karrimor, Berghaus or similar and these are usually satisfactory. They have the advantage that they take little breaking in. The slightly heavier traditional leather walking boots are also good. Avoid the types often found in high street

shoe shops which are simply cheap trainers with a higher canvas side sewn on - they give little support and will probably not last the trek. Above all, your boots must be well broken-in and comfortable. We do not recommend borrowing or renting boots. It is a good idea to carry your boots in your hand luggage on international flights or wear them - should your luggage be delayed, your well broken-in boots are the one thing which will be irreplaceable.

Climate

Peru

There is a rainy season from Dec - Mar however on the coast it rarely rains. Jun-Oct is damp and misty, but temperatures never drop below 10°C. At high altitudes although there are sunny days temperatures can drop dramatically, and conditions can change suddenly.

Clothing

In the highlands, conditions are generally dry and sunny during the day. Nights can be very cold at altitude so it is essential to bring adequate warm clothing for the trek especially between May and August. It can drop as low as -10°C at night. Be prepared for rain. Take your swimming costume for the thermal baths at Aguas Calientes. A sunhat is essential.

Thermals

Comfortable around camp and much more practical (and warmer) to sleep in than pyjamas.

Socks

It is best to wear a pair of liner socks under a pair of fairly thick loop stitch socks. This helps to protect your feet against blisters. Avoid nylon socks, they are abrasive, don't breathe well and can cause blisters.

T-shirts We recommend polyester/polypropylene fabrics which keep you warm even when wet.

Waterproofs

Breathable waterproofs not only protect against rain and wind but also stop you from overheating. They breathe and avoid condensation which you will experience from nylon waterproofs.

Thick jumper/fleece jacket

A thick jumper or fleece jacket is necessary as nights can be very cold at altitude, especially in July.

Make sure that your waterproof jacket is loose enough to wear over your sweater or fleece.

Shorts

Shorts can be very comfortable to walk in but you must carry long trousers with you in case you get either sunburned or cold.

Please remember we shall be passing through the occasional remote areas and villages and short shorts (especially on ladies) can give offence to the local inhabitants. Longer, looser fitting shorts are, in any case, more comfortable to walk in.

Gloves & Hat

Especially useful around camp in the morning and in the evening at higher altitudes.

Equipment

You will need a good insect repellent, suncream, a small torch and a personal water bottle. See notes regarding sleeping bags for the Inca Trail.

Sleeping Bag As you do not carry it yourself this may be down or synthetic, but it must be 4-season (temperature -10°C to -5°C). A cotton liner helps to keep your bag clean. You do not need a foam mat as thermarests are provided. Note: it is possible to hire a down sleeping bag locally for US\$ 20 for the whole trek. Let your tour leader know at the beginning of the tour.

Personal Equipment: On Trek

Trekking poles

Trekking poles are recommended. NB. Metal tipped trekking poles are NOT permitted in order to reduce erosion - please ensure they have rubber/plastic tips. Wooden poles are readily available locally.

Water Bottle

Water along the trail must never be considered as drinkable. The camp staff provide purified water each day with which to fill your own bottle. 1 litre is the minimum size suitable as disposable plastic bottles are not allowed on the trail. It is a good idea to add some powdered fruit juice for flavouring. Note: Metal bottles can also double up as hot water bottles.

Torch/Batteries/Bulb

A small torch is essential for finding things in your tent, visiting the 'toilet' in the night etc. Often a head torch is the most practical option as it allows you to have both hands free. Remember that in most developing countries only a limited selection of batteries is available. The most common are pen cells (or AA size) and SP/HP2 (D size).

Plastic Bags

If you pack bits and pieces in plastic bags inside your kit bag they will stay dry in case of rain and it will be easier for you to sort through in camp. Remember, the less you have to unpack in the evening, the less you have to repack each morning. A binliner to pack inside your daysac is also a good idea.

Toiletries

Try to keep heavy cosmetics etc to a minimum. Essentials are toothbrush/paste, soap and a small towel. Wet Wipes are great for a quick clean up in your tent, so bring a pack of those.

Personal First Aid Kit

On each trek a first aid kit is carried but you should have your own blister kit, supply of plasters, aspirin etc. (Please do not give medicines to local people without consulting the trek leader.)

Equipment Provided: On Trek -The following equipment list is provided by Explore once you are on the trek:

2-person tents.

Dining tent.

Thermarest.

Stools, table.

All cooking and kitchen gear.

A branded Explore kit bags on the Inca Trail is provided for you (you get to keep this bag). Your luggage is not taken on the actual trail and this kit bag is used to carry your personal belongings while undertaking the trip.

Footwear

Trainers or Trekking sandals

Useful around camp, in towns and when travelling. Sandals are ideal for rafting as they protect the soles of your feet and also keep them cool.

Comfortable shoes and sandals. Please see notes regarding trekking boots for Inca Trail. If participating in rafting old trainers (as they get wet) are useful.

Luggage: On Tour

One main piece of baggage and daypack. Remember you are expected to carry your own luggage so don't overload yourself.

Main Baggage: Your main piece of baggage – suitcase or rucksack – must be lockable as this becomes the receptacle for anything you don't want on the trek and this is stored at the hotel in Cusco while you are trekking.

Trek Kit Bag: Before leaving Cusco there is plenty of time to re-sort luggage into what you need on trek and what can be left in Cusco (see above). Your trek luggage, including sleeping bag, needs to be packed into a kit bag, soft holdall, frameless rucksack or similar to be carried by the porters. The weight limit for this is 7kg but you will probably find that you do not need this much.

Small Rucksack/Daysac: During the course of a trekking day, you do not have access to the luggage which is being carried for you by the porters. In any mountain region the weather can change rapidly and you must be equipped for this eventuality. Your daysac should, therefore, be large enough to carry the following: Waterproofs, sweater, long trousers (if walking in shorts), warm hat and gloves, sunhat, sun cream, water bottle (at least 2 litre or 2 1litre bottles), tissues and your packed lunch. Most people normally find that this adds up to about 6kg. Camera equipment can be heavy so think carefully when deciding what to take. Other optional items in a day pack might be a diary or a book to read at lunch time.

Luggage allowance on trip: 20kg

Cool Earth

Explore are proud to support Cool Earth in their effort to reduce global carbon dioxide levels through the prevention of deforestation in the South America rainforest. Cool Earth focus on areas in immediate danger of deforestation, supporting local communities to be forest guardians. To date 350,000 acres of rainforest has been protected. Saving rainforest also protects rare animals and plants, allows local forest communities to maintain their way of life, and protects a major source of oxygen and fresh water. When you travel on an Explore holiday we make a donation to Cool Earth that exceeds the impact of our customers flights each year.
