Often you'll stay in different styles of accommodation during your tour; so we make an average rating across the entire tour. For more information on where you'll stay each night, please refer to the day by day tour itinerary.

Preparing for your Tour

Climate

India

There is considerable variation between the different regions of India but, in general, the climate is tropical. Summer temperatures on the plains are very hot, but cooled by the South-West Monsoon, which lasts from June- September. During these months it can be very wet and therefore very humid. At altitude, temperatures can become quite cool at night even in the summer and may drop below freezing between December and February so warm clothing is necessary. In the winter, northern and mid India can be very cool, with cold evenings, so warm clothing, including plenty of layers, are essential. The south of India remains warm and sunny during the winter months.

Luggage allowance on tour:

Unfortunately it does occasionally happen that luggage does not always reach its destination on the same flight as its owner, or possibly it may be damaged in transit. If you are unlucky enough for this to occur, it is important that you file a PIR (Property Irregularity Report) with the airline before leaving the airport. This is essential when you come to make a claim either against the airline or from your travel insurance company
