Farms flourished and feather barons made their fortunes, building grand mansions. Today the ostriches are used more for their leather and meat - try some of the biltong. Preparing for your Trip

Climate

South Africa

Mild throughout the year and can thus be visited year round. The Western Cape has a Mediterranean-type climate, with warm, dry summers and cold winters with rainfall. Summer runs from November to March, with temperatures averaging 22oC to 34oC. The months of April and October are generally warm and sunny. Winter is also a good time to visit as towns and sites are not so crowded and the countryside is more verdant, but it can be cold. Additional information and climate charts can be accessed at <http://www.explore.co.uk/weather>. Seasonal weather patterns can be unpredictable. Up-to-date information on the weather worldwide can be found by following the BBC weather link on this page.

Luggage allowance on trip:

Unfortunately it does occasionally happen that luggage does not always reach its destination on the same flight as its owner, or possibly it may be damaged in transit. If you are unlucky enough for this to occur, it is important that you file a PIR (Property Irregularity Report) with the airline before leaving the airport. This is essential when you come to make a claim either against the airline or from your travel insurance company
