Spitsbergen, Greenland & Iceland - M/S Fram

This incredible expedition takes you to the biggest islands in the Arctic - Spitsbergen, Greenland and Iceland.

After a short stop in Longyearbyen, you will head north through the magnificent North West Spitsbergen National Park. The area is characterised by big inland glaciers and a typical alpine landscape and is filled with spectacular contrasts, from lush areas to naked moraines, rocky ridges and glaciers diving into the sea. Kongsfjorden and Magdalenefjorden impress with their dramatic landscapes and interesting history. At 78° 55' N you visit Ny Ålesund, one of the world's northernmost year-round communities and an advanced High Arctic research station.

As we sail towards the coast of Greenland, you can enjoy the solitude of this remote corner of the world. Once in the fjords of north east Greenland your sense of distance, size and shape of landscapes will be challenged. These are the largest fjords in the world and the surrounding alpine landscape, with hanging glaciers and dramatic vertical granite walls, reaches as far as the eye can see.

From the Westfjords of Iceland we spend three days exploring untouched nature with cliffs and valleys, high waterfalls and pure streams. This includes seeing famous places like Grundarfjörður, Flateyri and Ísafjörður, before ending this extraordinary arctic voyage in Reykjavik. This is an expedition where the elements rule, and the weather, wind and ice conditions will determine our final schedule. Safety is paramount and the captain will decide the final sailing itinerary during the voyage. This itinerary is just an indication of what you may experience on what promises to be a unique expedition.

Wildlife

Polar Bears, walrus, seals, Arctic fox, musk oxen, Reindeer and a prolific birdlife - Arctic terns, Ivory gulls, Guillemots, Kittiwakes, to name a few..

Your trip itinerary

Tour itinerary notes

While our intention is to adhere to the day-by-day itinerary as printed below, a degree of flexibility is built in. Overnight stops may vary from those suggested.

DAY 1 Oslo to Longyearbyen

Your Arctic adventure starts with an evening flight from Norway's capital, Oslo. Before departure, you can spend some time exploring this fjord-side city surrounded by forests, lakes and hills. Oslo offers a varied architecture, top-notch restaurants and endless shopping possibilities. The contrast will be significant when you arrive in Longyearbyen a couple of hours later. On arrival, you will be transferred to your hotel.

Hotel in Longyearbyen

DAY 2 Longyearbyen

Spend the morning exploring Longyearbyen and its surroundings, before embarkation in the afternoon. Longyearbyen is a Norwegian settlement often referred to as the capital of Svalbard. This is a lively small town, situated amid some incredible Arctic landscape. Barentsburg is a Russian settlement with an exotic collection of Russian artefacts and architecture and is very different to Longyearbyen. The museum, library and newly opened brewery function as meeting points and a research station is under construction. See a colourful folklore show and visit the hotel and museum. Experience a different side of Svalbard - a little piece of Russia in the Arctic. You will board your expedition vessel in the afternoon.

Preparing for your Trip

Climate

Arctic Region

The average temperatures in the Norwegian Arctic is approximately 5 degrees centigrade during the summer months (June-August.) It can however feel significantly colder with the wind, so be prepared for colder temperatures.

Iceland

Iceland has a cool and temperate climate and, despite its location just south of the Arctic Circle, its northerly latitude is counteracted by the warm waters of the North Atlantic Drift which encircles the island. Temperatures in winter can fluctuate between about 10°C and -10°C and precipitation in the form of rain, sleet or snow is to be expected at any time. Days will be short, with daylight often only guaranteed between about 11 am and 4 pm in December. The best time for seeing the Aurora Borealis is October to March. Summer is generally cool with average temperatures for June and July around 12 - 15 degree centigrade in Reykjavik, although is known to be warmer in other parts of the country. In June and July you can enjoy continuous daylight and see the Midnight Sun, whilst late spring and early autumn offer long twilights.

Greenland

Spitsbergen

Between May and September is the best time to visit this region, with summer temperatures reaching a maximum of 5 degrees centigrade. North of the Arctic Circle, the sun does not set between the middle of May and the end of July, so you can expect to encounter the midnight sun during this period.

Clothing

Pack comfortable, casual clothing for all activities. Wind and waterproof outer layers are essential, and a jacket is provided in the cost of the cruise. Beware of tight clothing that leaves no room for trapped air, which is an excellent insulator. Wool, silk and some of the new synthetic fibres, like polar fleece, retain heat better than cotton.

Parkas

A wind and waterproof jacket is provided as part of the cost of your holiday.

Gloves

Keeping your hands warm and dry can be a challenge. Thin polypropylene gloves can be worn underneath warm outergloves. This allows you some protection from the cold when removing your gloves to operate your camera etc. We strongly recommend that you bring more than one pair of gloves, in case one gets wet (or lost).

Hat/Cap

Warm, woollen hat/cap to protect your ears, as well as a scarf, neck gaiter or other face protection, such as a balaclava.

Trousers

Water-resistant trousers of coated nylon or, even better, Gore-Tex® are essential for your comfort. They can be worn over your regular clothes to keep you warm and dry. We suggest that you purchase trousers a few sizes larger than you normally wear as you will be wearing them over other clothing. Gore-Tex® or similar fabrics are excellent for keeping out wind and water without trapping excess heat. Rain gear and Gore-Tex® products can be found in any outdoor sport clothing store. In addition to your waterproof trousers, warm ski pants are suggested if you have them. Warm trousers such as jeans, corduroys etc are also good.

Socks

Warm wool socks worn over a thin pair of silk, polypropylene socks should provide enough warmth and insulation for your feet. Bring several pairs of socks, since you will inevitably get your feet wet.

Outer Clothing

Woollen, knit or cotton sweaters/tops, polar fleece tops (medium weight), several cotton turtlenecks and T-shirts for layering on and off the ship.

Underclothing

Thermal underwear is highly recommended as it will keep you warm without adding bulk. Most polar travellers prefer a lightweight version.

Equipment

Sunglasses and sun cream

Personal toiletries

A refillable water bottle

Books/reading material

Camera and memory cards (and something to protect the camera when out in the elements)

Seasickness remedy

Walking poles

Footwear

Waterproof boots are available on-board for a small charge.
Also ensure you take good walking boots and trainers for relaxing.

Luggage: On Tour

One main piece of baggage and daypack. Remember you are expected to carry your own luggage so don't overload yourself.

Luggage allowance on trip: 20kg
