Windward Isles and French Antilles

For those who traditionally associate the West Indies with sun, sea and sand, this exploration of three very different Caribbean islands will surprise and delight. Our journey begins in St Lucia, whose 'Pitons' provide a dramatic backdrop to its beaches and nature trails. We also visit Guadeloupe and Dominica, two contrasting islands where we hike through rainforest, marvel at Dominica's many natural wonders, discover spectacular waterfalls and taste the local rum. Along the way we have the opportunity to swim and snorkel in the warm Caribbean waters.

Why Book this trip

Explore's Windward Isles trip is the only tour that visits three distinct islands including one of the French Overseas Departments, with many included walks and site entrances. It is an unbeatable opportunity to explore the true Caribbean, away from the large hotel complexes and beach holiday-makers.

Suitability

We've given each of our tours a comfort rating and a tour pace, walking or cycling grade to give you a general idea about the level of activity on each tour and the standard of accommodation you will be staying in at the end of your day's adventure.

DAY 2 Walk the Des Cartiers Rainforest Trail bird spotting

After a short drive to the Quillesse Forest Reserve, we will walk the famous Des Cartiers Rainforest trail, hoping to catch a glimpse of some of the 30 species of birds that are found here, including the St Lucia Oriole, the St Lucia Black Finch and the rare St Lucian Parrot (walk 2.5 kms). Our afternoon is free to relax, and you may wish to visit the nearby botanical gardens or the golden stretch of sands at Sandy Bay.

Overnight: **Standard Hotel**

Swimming Pool Available 

 **Included Meals:** Breakfast

DAY 3 Morning visit of Morne Coubaril Estate, free afternoon

Today we head away from the Atlantic and across to the Caribbean side of the island, for our new two-night base at the town of Soufriere. Its French architecture and Catholic church reflects the island's history - St Lucia alternated between French and British control 14 times. This laid-back town is graced by old clapperboard buildings and its setting - dominated by the forest-clad volcanic cone of Petit Piton rearing a sheer 2450 metres out of the sea - is one of the most dramatic in the Caribbean. We will enjoy a morning excursion to the Morne Coubaril plantation estate, and Sulphur Springs where we see spectacular views of the Soufriere volcano. We will also watch the coconut dehusking and the processing of the cocoa bean. In the afternoon we are free to relax or to visit Anse Chastanet, famous for some of St Lucia's finest off-beach snorkelling - a 40 minute walk away from Soufriere, or a short water taxi journey. It is also possible to hire scuba equipment (certification required).

Overnight: **Standard Hotel**

Single Room Available

Swimming Pool Available 

 **Included Meals:** Breakfast

DAY 4 Free day; optional snorkelling, diving or climb Gros Piton

Today is completely free to enjoy the surroundings of Soufriere. Optional activities include walking to Anse Chastanet for snorkelling or scuba diving, mountain biking, botanical gardens (a 10 minute walk from the hotel) or hiking the triangular peak of Gros Piton, a relatively tough 2 hour round-trip.

DAY 5 Visit Pigeon Island National Park; Fly to Guadeloupe (France) and drive to Gosier

St Lucia is much more than a collection of beach resorts, and this morning we will be exploring one of its many national parks, which houses a fascinating array of historic landmarks. Pigeon Island has changed hands many times over the centuries, originally being occupied by the Carib people before being taken over by pirates, in turn followed by the French until their defeat at the hands of the British in 1778. Pigeon Island was strategically situated with an eye to the approach of enemy ships, and as such the views across the Caribbean Sea are stunning. We will visit the old British fort, as well as some of the other military ruins, before flying to Guadeloupe. The island has the nickname of the 'butterfly isle', due to the shape of its two main islands, which look like the wings of a butterfly and are joined together by bridges over a narrow strait. Although they are often referred to as one island, the two main islands that make up Guadeloupe are very distinct - Basse Terre is volcanically formed, covered with lush national park and centred by the volcano La Soufriere, while Grande Terre is flat, playing home to the majority of Guadeloupe's farmland and white sand beaches. An interesting historical quirk is that Britain had the choice of returning sugar-cane rich Guadeloupe or Canada to the French - and decided to keep Canada! Immediately on arrival we will note that French and the Euro have replaced St Lucia's English and the East Caribbean Dollar - as it is still part of France. We drive to the town of Gosier, our home on Grande Terre for the next 3 nights, where we can spend the early evening discovering the marina area or enjoying the sunset on one of the nearby beaches.

Overnight: **Standard Hotel**

 **Included Meals:** Breakfast

DAY 6 Swim in Crayfish Waterfall; Botanical Garden visit

This morning we drive over to Basse Terre to discover Guadeloupe's volcanic island. Due to the forests that cover the majority of Basse Terre, there is only one road around the circumference of the island and one road that cuts directly through the forest. We take the latter, and are immediately sheltered from the Caribbean heat by the wild canopy of Guadeloupe's national park. Our first stop is Cascade aux Ecrevisses, or 'Crayfish Falls', so named due to the once-abundant crayfish found swimming in the pool and river

below. We have the opportunity for a dip in the falls, or we can wander a little further down the river and enjoy the peace of the forest. Continuing our drive we arrive at the Botanical Garden of Deshaies, an enormous site that houses more than 1000 species of endemic and non-endemic birds, plants and flowers, set along 1.5km of pathways through 15 different 'zones'. Flamingos, parakeets, and parrots are found not far from breadfruit and avocado trees, baobab, jacaranda and bougainvillea and a large orchid collection among many other species. After exploring the many zones of the garden, we head into the pretty village of Deshaies, setting of the BBC's 'Death in Paradise', where our day ends on the majestic beach of Grande Anse. There is a short but steep walk here up to a viewpoint over the water, where you can still find an old cannon dating back to the late 1800s, or you can choose to simply relax on the beach and try a classic and cooling Antillaise delicacy, coconut sorbet. We later head back to our accommodation in Gosier.

Overnight: **Standard Hotel**

 **Included Meals:** Breakfast

DAY 7 Visit the cemetery at Morne a L'eau; walk to Pointe des Chateaux

Today we discover some of the island of Grand Terre, whose rocky cliffs and sandy beaches contrast sharply with the lush greenery of Basse Terre. We drive first to Morne a L'Eau to discover the eccentric cemetery, with its ramshackle array of crypts, almost all of which are decorated in a unique checkerboard pattern of black and white tiles. The oldest dates back to 1847. After a short visit, we head to the Damoiseau rum distillery, giving us an opportunity to see how 'rhum agricole' is produced, a style of rum originating in the French Caribbean from freshly squeezed sugar cane juice rather than molasses. Locals mix this alcohol with lime juice and sugar to make a refreshing (but deadly!) cocktail called a ti'punch. After our distillery visit we head towards the eastern tip of Guadeloupe at Pointe des Chateaux, where we discover the rugged shoreline and secluded beaches on an approximately 2km walk around the peninsula. The striking limestone cliff formations look out over some of the other islands in the Guadeloupe archipelago, including La Desirade (an old leper colony), Petite Terre and Marie Galante. Please note that on the 19th December 2017 departure, the distillery visit will not be possible as it is closed on the 24th-25th December.

 **Included Meals:** Breakfast

DAY 8 Ferry to Dominica; explore Roseau on foot

Today we drive to the port at Pointe a Pitre, and take the 2 hour ferry journey to our next destination - Dominica. This island was originally French, a fact that is evident in the everyday language of most of the people - Creole - a French based patois interspersed with English and words of African origin. Dominica is an independent state (not to be confused with the Dominican Republic) and is known as 'The Nature Island' - approximately 75% of the country is covered with rainforest, and we will explore this over the next 3 days. This afternoon, we discover the colourful capital of Roseau on foot, the most picturesque of the Caribbean's often grim capital cities, including its beautiful botanical gardens and heading up to Morne Bruce for a panorama of the city.

Overnight: **Standard Hotel**
Single Room Available

 **Included Meals:** Breakfast

DAY 9 Visit Cabrits National Park; Syndicate Rainforest walk and Indian River rowboat trip

Not only is Dominica rich in fauna and flora, but it boasts some intriguing historical sites, and this afternoon we will visit the Cabrits National Park in the north-east of the island. Here we pay a visit to Fort Shirley, a military outpost built by the British to defend northern Dominica. At one point it housed over 600 men, and several of the original buildings are completely restored. After discovering the historical significance of the fortress and enjoying the spectacular views down to the sea, we take a trip to the Indian River, named after the Carib people who were the original inhabitants of Dominica and who used this river as an access route to the Caribbean Sea. There are still 3000 Caribs living on the island, and it is the only Caribbean nation where they have their own territory. Our rowboat trip is an opportunity to spot heron, hummingbird and egrets amongst the swampy mangroves. We also head to the trails of the Syndicate Rainforest, where we hope to spot the national bird, the Sisserou, or the jacquot, the country's other endemic parrot, as well as the many species of giant trees found in abundance in the forest.

Overnight: **Standard Hotel**
Single Room Available

 **Included Meals:** Breakfast

DAY 10 Rainforest walks in Morne Trois Pitons National Park

Today we have a full day to explore the UNESCO World Heritage site of the Morne Trois Pitons National Park, home to dense primary rainforest. We take on three different walks today, and the paths can be slippery and muddy so good shoes are essential. Our first walk is to the long drop of Middleham Falls (3 hours). The path clings to the hillside and takes us deep into the forest, where hummingbirds are found flying amid the majestic Chataignier trees with their huge buttressed roots. We also take on the gentler, undulating trail

leading us to the impressive views around Freshwater Lake, located in a collapsed volcano. On our return we may (weather permitting) take a dip in the cold and refreshing waters of the Titou Gorge.

Overnight: **Standard Hotel**
Single Room Available

 **Included Meals:** Breakfast

DAY **11** Free day; optional snorkelling, diving, whalewatching or hiking

Today we are completely at our leisure to discover the other natural wonders that Dominica has in abundance. There is the chance to do the tough eight-hour hike to the Boiling Lake, passing sulphurous steaming rocks in the 'Valley of Desolation'. Alternatively, go snorkelling at Champagne Beach, so called due to the tiny bubbles coming from the hot springs located around the rocky outcrops, giving the impression of swimming in a glass of champagne. You can also go to the south of the island at Scotts Head, and bathe in the 'hot sea water' in Soufriere village. Alternatively, if there is a large enough group we may be able to go whale watching in the Caribbean Sea. Sightings of sperm whales are most common between November and March, and pygmy whales, short-fin pilot whales and dolphins can also be spotted in the area.

Overnight: **Standard Hotel**
Single Room Available

 **Included Meals:** Breakfast

DAY **12** Trip ends in Roseau

Our trip ends today in Roseau, Dominica. If you are returning on a flight organised by Explore, you will have a long layover via Barbados. We have included a day pass to a hotel in order for you to use their services, including their beach, pool, restaurant, baggage storage etc. It does not include access to a room or private shower facilities, but depending on availability you may be able to organise this on arrival if you wish.

Preparing for your Trip

Climate

Dominica

Daytime temperatures are in the 70's December to March and in the 80's April - June. Whatever the season, the climate is tempered by off shore breezes and the sea is pleasant to swim in year round. When visiting the rainforest be prepared for short sharp downpours at any time of the year. The hurricane season in the Caribbean officially runs from June to November, often peaking in September. However, as the frequency and intensity of the hurricanes is impossible to predict from year to year, we still plan operate our tours during this period. In the event of a hurricane occurring during your trip, your safety is our top priority. In accordance with local regulations and with the assistance of our local groundhandling agents, we may have to evacuate to another part of the island or have to remain in the same place for a number of days while the storm passes. This could result in a certain amount of disruption to the itinerary of your tour on the ground, or to your flights and, on very rare occasions when a hurricane is predicted to hit in advance of travel, we may even have to cancel your tour.

Cool Earth

Explore are proud to support Cool Earth in their effort to reduce global carbon dioxide levels through the prevention of deforestation in the South America rainforest. Cool Earth focus on areas in immediate danger of deforestation, supporting local communities to be forest guardians. To date 350,000 acres of rainforest has been protected. Saving rainforest also protects rare animals and plants, allows local forest communities to maintain their way of life, and protects a major source of oxygen and fresh water. When you travel on an Explore holiday we make a donation to Cool Earth that exceeds the impact of our customers flights each year.

Earth Matters

We are passionate about sustainable travel and work hard to create tours where your holiday delivers real benefits to the local communities. We minimise our impact by travelling in small groups, respecting local cultures, reducing waste and offsetting 100% of the CO2 from our flights.

When you travel with Explore, you are directly contributing to local economies and helping empower the people you meet. We currently support a range of charities and good causes, including: Toilet Twinning (helping to flush away poverty), Lone Buffalo Foundation (a community project based in Laos providing creative skills for young people) and have recently supported women's cooperatives in Borneo and Morocco. We are a member of Tourism Concern's Ethical Tour Operator Group (www.tourismconcern.org.uk) and support their campaign for fair and ethical tourism. We also care passionately about the world's wildlife and actively support and promote the Born Free Organisation and Mahouts Elephant Foundation.
